EXPERIENCE

Conga India Pvt. Ltd. [🔗](#)

Associate Software Engineer

July 2023 – Present

Ahmedabad, India

- Designed a **scalable and efficient e-commerce platform** within the custom solutions engineering team using **C# callbacks and service hooks** to handle and modify data on the e-commerce cart, significantly **improving performance** of the platform.
- Implemented scalable C# APIs to perform efficient create, read, and update operations on high-volume datasets (handling over **1500+ records** per request), successfully overcoming limitations of the previous platform and enhancing data management capabilities.
- Worked on a **publish-subscribe (pub/sub) model** to handle post-release upgrades, ensuring **real-time data updates** across systems through topic-based message handling.
- Worked on **Salesforce CPQ solutions**, including **Apex actions and classes** triggered by Salesforce Flows for streamlined operations.
- Built a tool that reduced manual tenant data comparison time from **96 hours (4 days) to 10-15 minutes** while processing over **150,000 records** at a time, generating detailed **Excel and PDF reports** for quick and easy analysis of differences.
